Once you have logged in you will see the following page.

Statistics of Status

- 2 Online, 1 Offline, 0 Fault, 0 Waiting, 0 Generating

New Plants in This Month

- 0 Plants, 0.00(kW)

Today Generation & Income

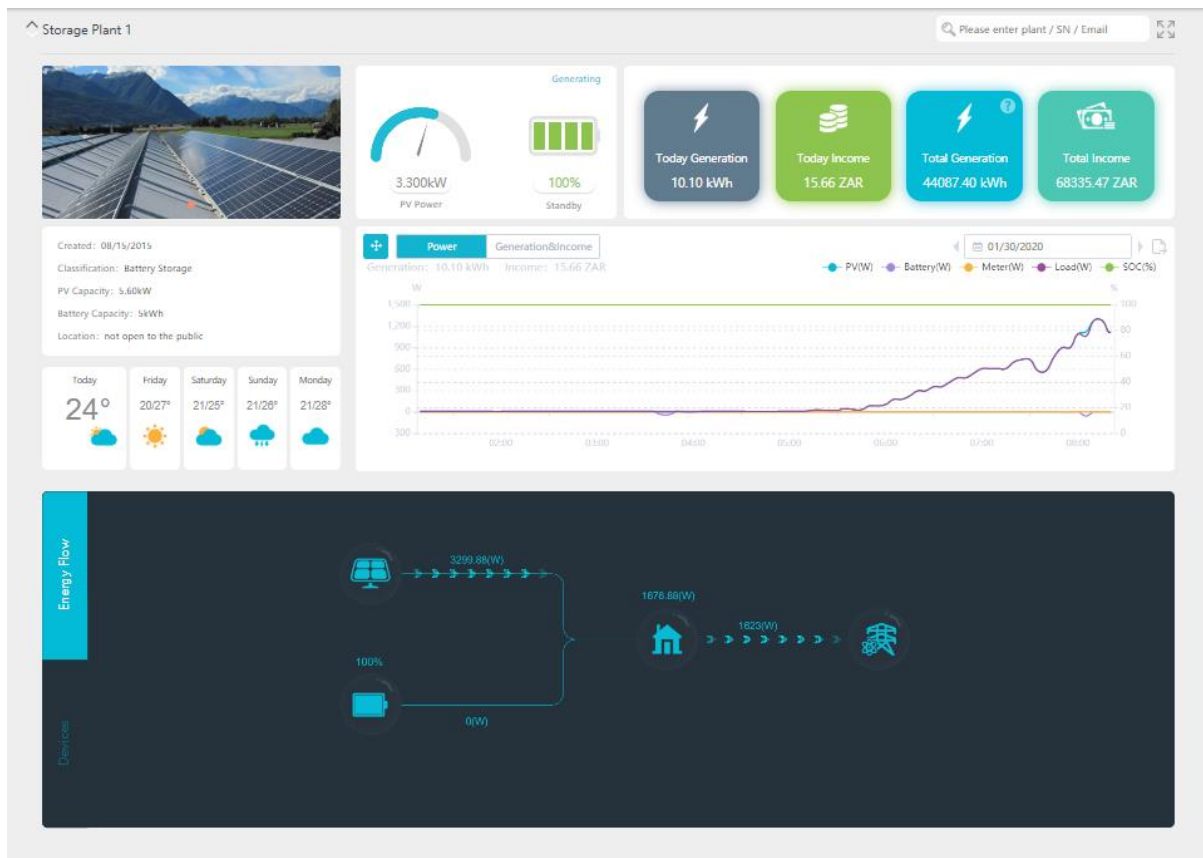

- 84.40(kWh), 75.43(USD)

Total Generation & Income

- 323.60MWh, 284468.52(USD)

Plant	Location	Power	Capacity	kWh/kWp	Today	Monthly	Total	Classification
Commercial Plant 5	not open to the public	0.00kW	114.84kW	0.00	0.00kWh	0.00kWh	194356.20kWh	ground-mounted
Residential Plant 4	not open to the public	10.80kW	30.00kW	2.48	74.30kWh	74.30kWh	85158.00kWh	residential
Storage Plant 1	not open to the public	3.30kW	5.60kW	1.80	10.10kWh	10.10kWh	44087.40kWh	battery Storage

To look at your plant click on your plant name – and the following page will open:

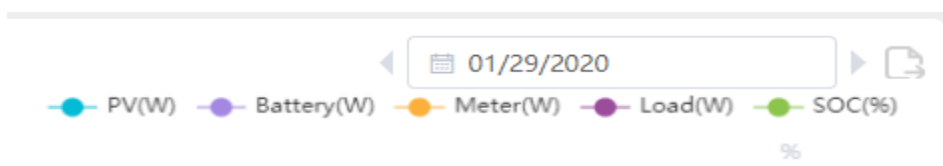

On this page you can see the Total generation for the day, income and total generation since your plant has been operating.

When you move your mouse pointer over the graphical – you can see data for the 24hour period.

By clicking on the PV(W) dot or any other you can switch the graph on or off to look at specific data only. Each colour represent a measuring metric.

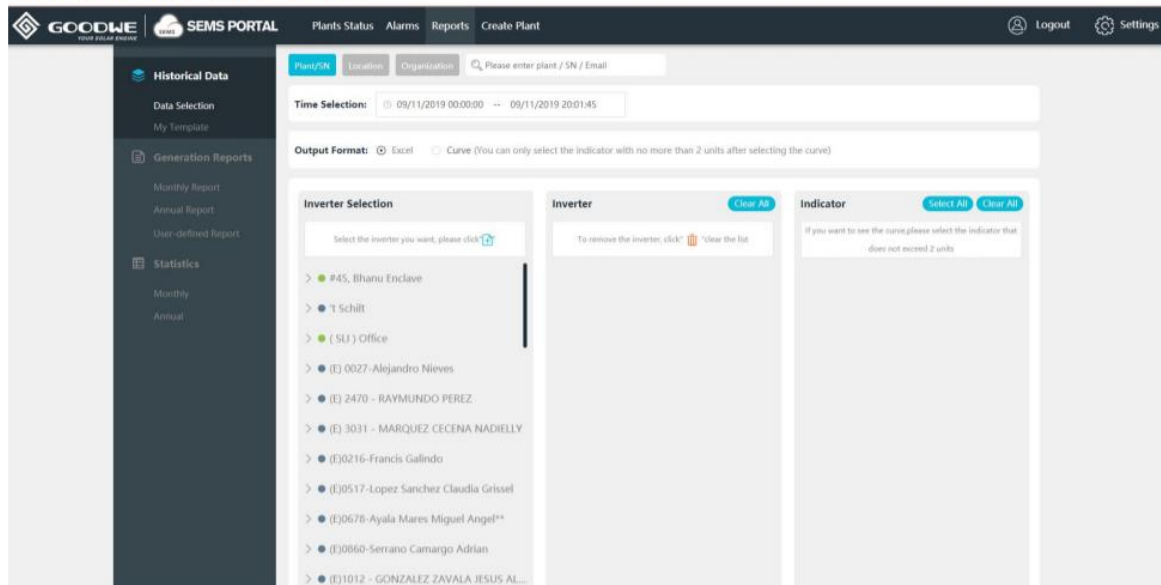

You can also look at specific dates by clicking on the date and selecting the day you would like to look at.

The best way to get used to this portal is to play around.

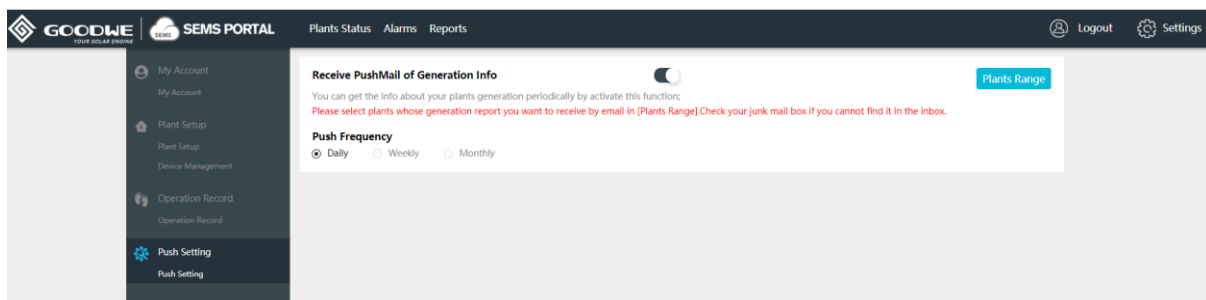

For example, if you are looking for Historical reports click on the report tab at the top of the page.

Click **【Reports】** , you can get:

Choose your plant and select measurement units.

You can also generate Monthly or Weekly report send to you via email.

Click on the Settings tab at the top of the web page.

Select Push Settings

Slide the switch to on

Select your Push Frequency. (Daily, Weekly or Monthly)

Click Plant Range and select your plant and click Submit

You should now receive an email with your generation report.
